# Lalit Rajpurohit

***Cloud & DevOps Engineer***

Email: rajpurohitlalit181@gmail.com | LinkedIn: linkedin.com/in/lalit-rajpurohit | GitHub: github.com/Lalit-Rajpurohit | Portfolio: lalitgr.xyz

## Professional Summary

Cloud & DevOps Engineer with hands-on experience designing, automating, and deploying scalable cloud infrastructure on AWS and Azure. Certified AWS SAA-C03 and Microsoft AZ-104, with strong expertise in Infrastructure as Code (Terraform), containerization (Docker, Kubernetes), and CI/CD automation (GitHub Actions). Proven ability to convert architecture patterns into reproducible, secure, and cost-optimized deployments. Seeking roles in platform engineering, cloud migration, or site reliability where I can apply automation and IaC to improve delivery velocity and reliability.

## Certifications & Awards

- AWS Certified Solutions Architect – Associate (SAA-C03) verify
- Microsoft Certified: Azure Administrator (AZ-104) verify

## Education

- **Bachelor of Business Administration in Computer Applications** | CGPA: 9.0 | 2022-2025
  **-Savitribai Phule Pune University**
- CloudThat CTJGP Program | **Cloud & DevOps training** | 2025-2026

## Selected Projects

**AWS 3-Tier Architecture:** github.com/Lalit-Rajpurohit/aws-3-tier-architecture
Designed and provisioned a highly available 3-tier web architecture using ALB, EC2, and RDS with Terraform; implemented autoscaling, health checks, and CI/CD integration to enable repeatable deployments.

**Serverless Contact Form:** github.com/Lalit-Rajpurohit/Create-contact-form-using-AWS
Built a serverless pipeline using S3, API Gateway, Lambda, and SES for form processing; added validation, logging, and IaC deployment patterns.

**Containerized Web App (ECS Fargate):** github.com/Lalit-Rajpurohit/AWS-Containerized
Dockerized and deployed an application to AWS ECS Fargate behind ALB with autoscaling; implemented CI/CD to automate image builds and deployments.

**Static Website Hosting (AWS Amplify + Route 53):** github.com/Lalit-Rajpurohit/Static-website-AWS-Amplify

Hosted portfolio with AWS Amplify, automated DNS via Route 53, and enabled HTTPS with CI/CD deployment.

**Movie Booking Website:** github.com/Lalit-Rajpurohit/Movie-Booking-Website
Full-stack demo used to demonstrate CI/CD and container deployment workflows for interview demos.

## Technical Skills

- Cloud & Infra: AWS, Azure, GCP, IaaS, PaaS, SaaS, Hybrid Cloud, VPC, IAM
- IaC & Automation: Terraform, CloudFormation (basic), Ansible, GitOps
- Containers & Orchestration: Docker, Kubernetes (EKS/AKS/GKE), ECS/Fargate, Helm
- CI/CD & Tooling: Git, GitHub Actions, Jenkins, GHCR/ECR, Pipeline Automation
- Monitoring & Security: CloudWatch, Prometheus, Grafana, ELK basics, DevSecOps
- Programming & Web: Python, Java, C++, JavaScript, TypeScript, React, Next.js, Node.js
- Databases & Scripting: MySQL, Shell scripting
- Web: HTML, CSS, Tailwind CSS
